## Skills and abilities

---

### Programming

- C/C++, C#, Objective-C, Java
- Ruby (Ruby On Rails, Sinatra, Cucumber), Python
- Javascript, HTML, CSS
- SQL

### System

- Windows, Linux, Mac OS, iOS, Android

### Personal interest

- Functional programming: LISP, Clojure, Haskell, Erlang
- Data mining: Hadoop, Camel
- Project management: Kanban, Scrum

## Experience

---

May 2007 – Present

### SoftJourn, inc      Snr. Developer

- **Project:** Check 21 deposit application for US customer  
**Responsibilities:** Software Design and development including centralized server application and client check processing application. Design and development of the interface with US banks.  
**Tools:** C#.NET, ADO.NET, ASP.NET, MS SQL, MS Reporting Services
- **Project:** DB Migration from MSSQL to Firebird  
**Responsibilities:** Software Design and development. Communication with client.  
**Tools:** C/C++ ADO/OLE providers. SideBySide tech from Microsoft. C# ADO.NET, Microsoft Enterprise Patterns library MSSQL, Firebird. Stored procedures, views, triggers.
- **Project:** Plugin for iTunes  
**Responsibilities:** Software Design and development. Communication with client.  
**Tools:** C#, C++, Win32 API, SQLite, XML.
- **Project:** Shiron AAC server – part of Shiron's InterSky Satellite Communication solution  
**Responsibilities:** Software Design and development. Communication with client.  
**Tools:** C/C++, Win32, STL, ACE-5.5.1. Oracle, MySQL
- **Project:** MAATS 2.0  
**Responsibilities:** Software Design and development.  
**Tools:** ASP.NET MVC, JQuery, C#, LINQ, MSSQL
- **Project:** Secured Address Book  
**Responsibilities:** Software Design and development.  
**Tools:** WindowsCE, C++, STL, Win32 CE
- **Project:** Lemur - internal project. Company Project Management tool.  
**Responsibilities:** Software Design and development.  
**Tools:** Ruby, Ruby on Rails, MySQL

- **Project:**iTrivia  
**Responsibilities:**Software Design and development. Communication with client.  
**Tools:**Objective-C,CocoaTouch SDK,UIKit,QuartzCore
- **Project:**iTrivia - web mobile version  
**Responsibilities:**Software Design and development. Communication with client.  
**Tools:** HTML5, CSS3, jQuery, jQtouch
- **Project:**Entertainment application for Android platform.  
**Responsibilities:**Software Design and development.  
**Tools:**Eclipse, Java, Android SDK
- **Project:**SoftJourn publishing framework - tool for creating interactive magazines for iPad.  
**Responsibilities:**Software Design and development.  
**Tools:**Objective-C,CocoaTouch SDK,UIKit,QuartzCore

*July 2005 – July 2006*

## **Telrad Networks      Software Designer**

- **Project:**Distributed Service Module Multi Service Platform “DSM MSP” Project  
**Responsibilities:**Software Designer, embedded programming under psOS+,VxWorks  
c PLS System, ClearCase, UNIX C/C ++ compilers Additional technologies: SONET/SDH/PDH, TL1.

*June 2004 – July 2005*

## **Mita-Teknik A/S      Software Developer**

- **Project:** Gateway - SCADA application for the management of wind turbines  
**Responsibilities:** Design, refactoring and development of client side  
**Tools:**Borland C++ Builder 6, Borland JBuilder 9, Borland Together 6.1, MySQL 4, Firebird 1.5

## **Education**

---

*1998 - 2003*

**State University 'Lviv Polytechnics'**  
Specialist, Applied Mathematics
